The compound features illuminated pathways, plant walls adorned with indigenous flora, and a bridge connecting to a multifunctional wellness complex, fostering a healthy and relaxed lifestyle in harmony with nature. This Wellness Hub includes a dry sauna to release tension, a hammam to purify the senses, a fully equipped gym, and an outdoor fitness area to exercise and maintain balance.

The project's essence centres on exclusivity, emphasising respect for the natural environment and high energy efficiency, represented by an A rating and the BREEAM "Very Good" certification. The open-concept design integrates living, dining, and kitchen areas in a space up to 12 metres wide, with a seamless connection to the outside porch, which provides abundant natural light and ventilation to each unit. All homes come with a private pool and spacious outdoor areas, ideal for enjoying the coveted Mediterranean climate that characterises Marbella.
